

## ARC Pay Gateway Certification Checklist

Once you have completed your internal QA and testing, you will be ready to engage the ARC Pay team to have your integration certified. The certification process may vary depending on the integration method and the number of features and services you have adopted.

If you have not already done so, please walk through the testing steps for your selected integration method. For example, here is the testing page for the hosted [checkout](#). A series of [test cards](#) within the portal provides various response outcomes depending on the data provided in your request.

### Required Data Elements: [Airline](#):

<ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> <a href="#">Document Type</a> ("MCO" Recommended)</li> <li><input checked="" type="checkbox"/> <a href="#">Ticket Number</a></li> <li><input checked="" type="checkbox"/> <a href="#">Booking Reference</a></li> <li><input checked="" type="checkbox"/> <a href="#">Passenger</a> <ul style="list-style-type: none"> <li>FirstName</li> <li>LastName</li> </ul> </li> <li><input checked="" type="checkbox"/> Travel Agent Code: <b>Provided by ARC</b></li> <li><input checked="" type="checkbox"/> Travel Agent Name: <b>DBA Name</b></li> </ul>	<ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> Flight Itinerary           <ul style="list-style-type: none"> <li>Carrier Code: (always "<b>889 or XD</b>")</li> <li><a href="#">Departure Date</a></li> <li><a href="#">Departure Time</a></li> <li><a href="#">Departure Airport</a></li> <li><a href="#">Destination Airport</a></li> <li><a href="#">Flight # / PNR</a></li> </ul> </li> <li><input checked="" type="checkbox"/> <a href="#">Class of Service</a> "Y" or "W"           <ul style="list-style-type: none"> <li>(e.g.: Y= Economy, W = Premium Economy)</li> </ul> </li> </ul>
--	---

NOTE: The above fields must be populated so the payments qualify correctly for card brand interchange. We can work with you during certification to ensure you are correctly obtaining and/or passing the necessary data to satisfy the field requirements and validation.

### Certification Checklist

#### Integration Method:

Direct Payment	Hosted Checkout	Session Checkout
Must provide PCI certification before moving into production	Walk-ARC through steps showing how and where the hosted page will be rendered.	Walk-ARC through a steps showing how and where the session checkout service will be embedded into your workflow.

Provide examples of each of the following steps based on adopted functionality or services

#### Standard Features:

Payment (Pay or Authorization) Refunds	Voids Capture	Retrieve
---	------------------	----------
